*Beneath the water the body sank rapidly. She would lie still and undisturbed for many years but above her on dry land, the nightmare was just beginning.*

When Detective Erika Foster receives a tip off that key evidence for a major narcotics case was stashed in a disused quarry on the outskirts of London, she orders for it to be searched. From the thick sludge the drugs are recovered, but so is the skeleton of a young child.

The remains are quickly identified as eleven-year-old Jessica Collins. The missing girl who made headline news when she vanished twenty-six years ago.

As Erika tries to piece together new evidence with the old, she discovers a family harbouring secrets, a detective plagued by her failure to find Jessica, and the mysterious death of a man living by the quarry.

Is the suspect someone close to home? Someone doesn't want this case solved. And they'll do anything to stop Erika from finding the truth.
